

## CUSTOMIZED MOULDED RUBBER PARTS FROM ALL POLYMERS NR TO KEVLAR

Sona Industries places a high value on the quality of the moulded rubber parts, components, and products. All products are manufactured in its factory, and the raw materials, inputs, and finished products are rigorously inspected to ensure quality before dispatch. We evaluate the most advantageous options for part and mould design, while our chemists create a material that is tailored to meet the most demanding applications. We possess the skill, experience, and vision to take sample seals, drawings, and physical evaluations.

We are capable of providing solutions for even the most challenging applications due to our expertise. Our support can help you develop and run your business successfully.

## QUALITY ASSURANCE OF MOULDED RUBBER PARTS

We have established, implemented, maintained, and strived to continually improve the quality management system, which has been certified by one of the world's leading registration agencies, M/s. United Registrar of Systems in accordance with the ISO 9001:2015 certification standard.

We make every effort to meet the needs of our customers and increase customer satisfaction on a long-term basis. We ensure timely delivery at a competitive price while also providing necessary technical services.

Manufactured with the most technologically advanced machines meeting stringent tolerance levels.

- Custom moulded rubber parts
- Export to any part of the globe
- Expertise in rubber parts for oil fields
- High-performance seals
- High Quality products

## Our Product Range

Non Rotational Bottom

NBR Packing with Special Inner Coating

Wiper Fin

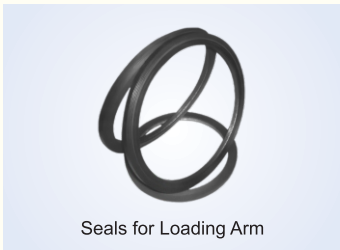

Float Collar

Victaulic Coupling

Fabric Covered Oil Seal With Teflon Dust Lip

Seals for Loading Arm

Valve Seats

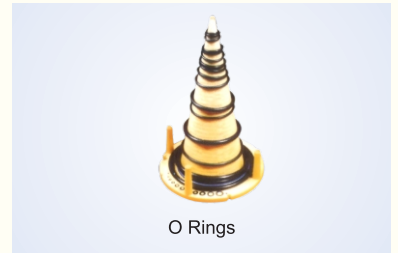

Gas Lift Valve Seals With PTFE + Ryton Spacers

Brake Chamber Diaphragms

- 'T' Seals with or without Backup Rings.
- 'O' Rings, 'O' Rings Kits & Backup Rings from all Synthetic Rubbers & Teflon.
- Chevron Seals, 'V' Packings.
- Seals for Hammer Unions, Swivel joints & Kits for Expansion Joints.
- Inner and Outer Seals for Blow Out Preventers.
- Thread Protector Caps & Covers as per API standards.
- Seals for Wireline Equipment & Cap Liners.
- Wiper & Scrappers.
- Plunger Cups, Valve Cups, Baffles for Mud Pumps.
- Backup Rings with Glass or Graphite filling and Phosphorous Bronze filled PTFE.
- Balancing Straps.
- Shock Mounts for Shale Shakers.
- Cups for Pigging.
- Cementing Plugs and Bridge Plugs. (Non Rotational & Conventional Types).
- Diaphragms. (Rayon, Nylon, Reinforced)
- Stage Cementing Collars.
- Metal Bonded Components (Cement Retaining Seals)
- Closing Sleeves, Seals for Tie Back Mandrels.
- Oil Seal and Bonded Washers.
